11 | 27.9cm

Gemessen wird bei leicht geballter Hand über den Fingergelenken. Der gemessene Umfang in cm muss in Zoll umgerechnet werden (1 Zoll = 2,54cm, siehe Größentabelle oben). Dieser Wert entspricht der Handschuhgröße. Gemessen wird die dominante Hand (Rechtshänder - rechts, Linkshänder - links).

The measurement is taken over the knuckles with a lightly clenched hand. The measured circumference in cm must be converted into inches (1 inch = 2,54 cm). This value corresponds to the glove size. The dominant hand is always measured (right-handed people - right, left-handed people - left).
